

EmolentTM

Light Liquid Paraffin & White Soft Paraffin

COMPOSITION

EmolentTM Lotion: Each gram Lotion contains Light Liquid Paraffin BP 30 mg and White Soft Paraffin BP 80 mg.

EmolentTM Cream: Each gram Cream contains Light Liquid Paraffin BP 60 mg & White Soft Paraffin BP 150 mg

PHARMACOLOGY

Light Liquid Paraffin and White Soft Paraffin exert an emollient effect by forming an occlusive film which reduces trans-epidermal water loss, thus helping to maintain normal skin humidity levels.

INDICATION

EmolentTM Lotion & Cream are used for the treatment of dry skin conditions.

DOSAGE & ADMINISTRATION

Light Liquid Paraffin and White Soft Paraffin lotion is used when required. Apply to the affected area and rub in well. It is especially effective after washing when the sebum content of the stratum corneum may be depleted resulting in excessive moisture loss.

USE IN PREGNANCY AND LACTATION

There are no restrictions on the use during pregnancy or lactation.

CONTRAINDICATION

Hypersensitivity to any of the ingredients.

ADVERSE EFFECT

No remarkable adverse effects have been reported.

STORAGE

Store below 25° C and protect from light. Do not refrigerate. Keep out of the reach of children.

HOW SUPPLIED

EmolentTM Lotion : Each container contains 120 ml lotion.

EmolentTM Cream: Each laminated tube contains 25 gm cream.
