

Betaburn™

β-Sitosterol 2.5 mg/gm

Composition

β-Sitosterol 2.5 mg/gm as the main active ingredient. The base of the Ointment is composed of sesame oil, honey & paraffin. It also includes amino acids, fatty acids, vitamins and polysaccharides.

Pharmacology

Betaburn™ acts by:

- Providing an optimum physiological moisture necessary for regeneration and repair.
- Creating an atmosphere unfavorable for bacterial and fungal \ colonization.
- Providing local nutrition for wound bed cells.
- Liquefying the necrotic tissue.

Indications

Betaburn™ has been used successfully in the treatment of the following wounds:

- Burn
- Leg ulcer
- Surgical wound
- Obstetric wound
- Cracked nipple

Method of Application

A thin layer of **Betaburn™** ointment should be applied to the whole burn/affected area 3-4 times daily.

Warnings

Avoid contact with eyes or mucous membrane.
Avoid accidental ingestion. If swallowed, get medical treatment.

Side Effects

No side effects to the product have been reported so far except for rare allergic reactions to sesame oil.

Precautions

Betaburn™ ointment may vary its physical appearance during storage especially during hot season. But it does not lose its efficacy.

Storage Condition

Store in a cool & dry place, below 30⁰C. Protect from direct sunlight & moisture. Keep the medicine out of the reach of children.
